QUICK-FIT VALVE

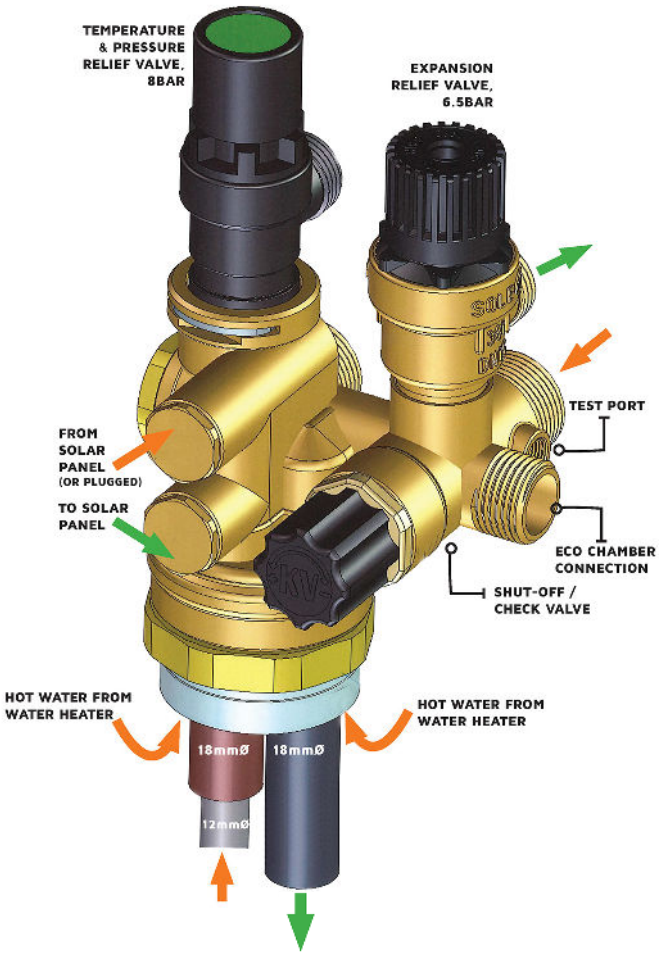

Our ***Quick-Fit*** Cylinder is a new innovative system that incorporates a valve bank mounted on the top of the tank. This slick new design will save you time in installation, parts and material which saves you money with every install.

The ***Quick-Fit*** Cylinder is made from high-quality Duplex Stainless Steel or Vitreous Enamel and is Super-Insulated using high-density polyurethane.

The ***Quick-Fit*** Valve System contains a TPR, Tempering valve, Cold-water Expansion, a stainless steel dropper tube with an anode attached to it which are all mounted into a high-quality brass housing. The ***Quick-Fit*** System is installed on the top of the cylinder using an O-ring style fitting which gives you the option of rotating the valve to suit any install parameters.

INSTALLATION KIT ALSO AVAILABLE
